(54) Title: **SPRAY DISPENSER ASSEMBLY AND VESSEL THEREFOR**

(57) Abstract: A spray dispenser assembly (1) for the dispensing of liquids suitable for use in clean-room environments comprising (a) a collapsible liquid impermeable vessel (4) having an open end comprising a neck portion (5) provided with a collar (8) that is more rigid than the vessel (4); the collar (8) being adapted to sealingly engage with seal means (12) provided between the extraction means of the spray dispenser assembly (1) and the vessel (4); (b) extraction means for extracting liquid from the vessel (4) and dispensing the liquid as a spray; and (c) seal means (12) arranged in sealing position to substantially seal the vessel to the extraction means and substantially inhibit the ingress of air into the vessel (4); the seal means (12) and extraction means being arranged such that the extraction means is operable to dispense liquid from the vessel (4) whilst the seal means (12) is in a sealing position. Collapsible vessels for use in such spray assemblies and kits comprising the collapsible vessels are also disclosed.

* Special categories of cited documents :

- *A* document defining the general state of the art which is not considered to be of particular relevance
- *E* earlier document but published on or after the international filing date
- *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- *O* document referring to an oral disclosure, use, exhibition or other means
- *P* document published prior to the international filing date but later than the priority date claimed

- *T* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- *X* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- *Y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- *Z* document member of the same patent family
